Nazer Petroleum

We were founded in 2017 with an aim to provide businesses an affordable solution to the ever-increasing costs associated with diesel consumption by their fleets. We strive to provide clean energy which is consumed by diesel engines without any modifications being required a simple and cost-effective way to use a clean fuel, gain tax returns and reduce your carbon footprint through using our product. We have a good relationship with our associates and partners which allows for a consistent supply of diesel.
